MAINZ EUROPEAN SCHOOL OF MINIMALLY INVASIVE THORACIC SURGERY

DEAR COLLEAGUES,

on behalf of the German Society for Thoracic Surgery, the Division of Thoracic Surgery – University Medical Center of the Johannes Gutenberg University Mainz and AstraZeneca we would like to invite you to the **MAINZ EUROPEAN SCHOOL OF MINIMALLY INVASIVE THORACIC SURGERY**

Modern minimally invasive thoracic surgery techniques such as uVATS, RATS, VAMLA and the Nuss procedure offer a great benefit to our patients. However, these procedures are not broadly available. This may be caused by a lack of training and surgical skills, which is amplified especially in these difficult times of the pandemic.

With our webinar school we would like to provide an in-depth learning experience focusing on step-by-step teaching of different procedures. Participants benefit from the experience of internationally recognized experts who provide insight into their approaches and techniques. Learn from their tips and tricks!

After each presentation there will be a discussion with the Speaker and a German panel of experts where you have the opportunity to interact with the speaker and panelists. This will be your chance to get answers to your questions from experts who help you to strengthen the minimally invasive program at your own institution.

The series of webinars will be completed by a hands-on workshop at the University Medical Center Mainz, scheduled for late spring 2022 if feasible based on the current restrictions (details to follow)

Don't hesitate to register – it's free of charge!

THE MAINZ SCHOOL AT A GLANCE:

TOPIC: Step by step teaching of minimally invasive procedures (uVATS, RATS, Nuss)

TARGET AUDIENCE: Junior thoracic surgeons in training and thoracic surgeons with a special interest in uVATS anatomical resection and mediastinal surgery

FORMAT: Series of webinars and a completing hands-on course Interaction with Q&A is endorsed

SPEAKERS AND PANEL: Internationally recognized experts from Europe and Asia

REGISTRATION AND COSTS: Each webinar can be booked separately and is free of charge

On behalf of the organizing group

ERIC ROESSNER

DATE	TOPIC	PRESENTER	PANEL
29/09/21	Evidence for VATS and ERAS	Tim Batchelor, Bristol	Jens Neudecker, Berlin Patrick Zardo, Hannover
20/10/21	Step by step upper lobe “fissure last” uVATS lobectomies	Silviu Buder, London	Stefanie Veit, Frankfurt Ioannis Karampinis, Mainz
03/11/21	Step by step lower lobe “fissure last” uVATS lobectomies	Peter Licht, Odense	Mahmoud Ismail, Potsdam Bernhard Gohrbandt, Mainz
17/11/21	Step by step uVATS segmentectomies of segments of the upper lobes	Alan Sihoe, Hong Kong	Hauke Winter, Heidelberg Rolf Oerter, Rostock
01/12/21	Step by step uVATS segmentectomies of segments of the lower lobes	Francesco Di Chiara, Oxford	Erich Hecker, Herne Rafael Andrade, Minnesota
15/12/21	Step by step uVATS Seg II and VI – the dorsal approach	Davor Stamenovic, Mainz	Johannes Bodner, München Thomas Kyriss, Böblingen
12/01/22	uVATS Broncho- and angioplastic procedures	Feng Yao, Shanghai	Jan Egberts, Hamburg Servet Bölükbas, Essen
26/01/22	Management of intra- and postop complications	Hasan Batirel, Istanbul	Ralph Schmid, Bern Ludger Hillejan, Ostercappeln
09/02/22	VAMLA	Martin Hürtgen, Koblenz	Davor Stamenovic, Mainz Wolfram Klemm, Waren
02/03/22	VATS and RATS thymic surgery	Eric Röbner, Mainz	Jens Rückert, Berlin Matthias Steinert, Leipzig
16/03/22	Nuss procedures	Korkut Bostanci, Istanbul	Roland Lützenberg, Ostercappeln Sönke von Weihe, Großhansdorf

Each event will take place 6:00 to 7:00 pm CET.
