# MAINZ EUROPEAN SCHOOL OF MINIMALLY INVASIVE THORACIC SURGERY

## DEAR COLLEAGUES,

on behalf of the German Society for Thoracic Surgery (DGT), the Spanish Society for Thoracic Surgery (SECT) and the Department of Thoracic Surgery, Center for Thoracic Diseases of the University Medical Center Mainz it is our honor and pleasure to invite you the 2023 series of the **MAINZ EUROPEAN SCHOOL OF MINIMALLY INVASIVE THORACIC SURGERY**.

This year we will focus again on the topics which are highly relevant for senior trainees and junior independent surgeons with a special interest in modern minimally invasive techniques such as uniportal VATS and RATS. With the first two lectures we will lay the scientific background, everything you need to know about relevant studies in the field on minimally invasive treatment of lung cancer. Following that, our presenters will offer step by step guidance through different minimally invasive lung resections.

Together with our panelist we are aiming for an intensive discussion with you, the audience.

We are looking forward to welcome you all to 2023 series of the Mainz School!

Do not hesitate to register – its free of charge!

On behalf of the organizing group

**ERIC ROESSNER AND CARLOS GÁLVEZ**

## THE MAINZ SCHOOL AT A GLANCE:

**TOPIC:** Step by step teaching of minimally invasive procedures uVATS, RATS, Nuss

**TARGET AUDIENCE:** Junior thoracic surgeons in training and thoracic surgeons with a special interest in uVATS anatomical resection and mediastinal surgery
